

29th July 2010

Run Number 154
Starting at Gardeners Arms, Woolton

The Pack: Carthief; ET; 10"; Tia Maria; FCUK; Sprog; Compo (Hare); Wigan Pier, Anthony.

The Hare proudly showing how he had marked the trail with his tracksuit. He also told us that the pub was a CAMRA 2010 pub but more of that later.

With almost no pavement artistry to describe the markings the eyes were drawn to The Hare's shoes.

His protests that they had already set a Trail were Ignored and the RA stored up the information.

At some point Wigan Pier joined the run but it must have been after the Flash.

The full details of the run are lost in the mists of time now but two **Compo** specials stand out.

There were fences and gates galore.

Aficianados of the genre will notice that several of the fences and gates were used in both directions. The ever Machiavellian **Compo** arranged several false trails and / or Check Backs which enabled the Pack to practice their fence sitting Eh I mean negotiation skills.

The other notable Compoism was a technique to really slow the FRBs down. The trail markings were set slightly off trail which persuaded all of the FRBs at some point to run off down a wrong trail only to be called back. Eventually most of the FRBs learned the lesson.

The

was welcomed warmly and the return was recorded at

The circle was called by the **RA**

The Hare for his efforts

FCUK for knowing the words (which ones is not recorded)

Returnees: **Wigan Pier, 10"**

Virgin - Anthony

Compo For his new trainers

Wigan Pier Penelope Pitstop

Compo For his unusual markings

FCUK For some reason that was again not recorded.

We retired to the pub in anticipation of some CAMRA beer.

At least one pint was sent back and the returner received a black look from the staff for suggesting that the beer was off.
