

9 June 2011

Run Number 178  
Starting at the Nawaab, Levenshulme Manchester

Joint run with Manchester Curry Hash  
Run Number 5

**The Pack:** Snoozanne, Cleopatra, Madhatter, Alternative Entrance (**Hare**)  
Carless Whisper, Carthief, FCUK, Compo, 10", OTT, ET, Hansel, Adrian

Looking like the Magnificent 7 the slightly late starters (the FRBs were well on their way) strolled through the car park. The Hare had not announced any special markings and we made our way to the front of the Nawaab where the Hare showed off her skills

It looked as if she had cheated for the rest of the Checks as it seemed as if she had used the lamp post as a template for at least some of them.

OK that last one is not a lamp post

Out along Stockport Road and then a teasing trail around

with a Check at each corner testing the Pack (it has to go into the Park now surely?)

We got to Attwood Street and a curious marking appeared

which the Hare insisted was not her handiwork but it seemed to be in the same chalk.

On we went to another tantalizing Check

Along East street and onto what looked like a misspelling

(Apparently there is a Parkin St).

Northmoor St and the camera goaded the Pack into action. Just compare **Alternative Entrance** in the second and third photos.

A sneaky Check with a sharp left turn at

down to Kirkmanshulme Lane.

A slightly unfortunate stance by Hanzel

well he looked very overweight at a glance (to me at any rate)

“By

she’s got it!”

Through the market

with some long stretches that suited the FRBs and finally into a Park

But not for long

The FRBs raced ahead and after admiring the

and the

Stood about drinking Adrian's beer

By the time the Hare had got back Adrian and done some shopping and washed and ironed his clothes as well. Nobody believed him. Male Hashers ironing! Ridiculous!!

There was a general impatience to savour the food so Down Down's were limited to the Hare

We made our way to The Nawaab.

The blue ice cream (liquorice flavour) was nice but I had a bad headache the next day. Too many chemicals I reckon.

Another excellent **AE** production.
