

5th July 2012

Run Number 210

Starting at Greenhills Mossley Hill

The Pack Carthief, Tia Maria (Hare); FCUK; Another Mother Trucker, Snoozanne; Alternative Entrance; Sprog

As **Sprog** said half way around the Trail “ It is always nice to run **Tia Maria’s** trail as you get 2 runs for the price of one”, although I doubt that Hash Stats could be persuaded to give us each 2 ticks.

Arriving at the pub the pack looked ominously small but gradually they trickled in with **Another Mother Trucker** missing the Hash Flash. The background seems to cover everything required

The TM trademark start with many possibly routes and a scattered Pack but trail was eventually called up Greenhill Road. A few Checks and we were on Ballantrae Road heading for

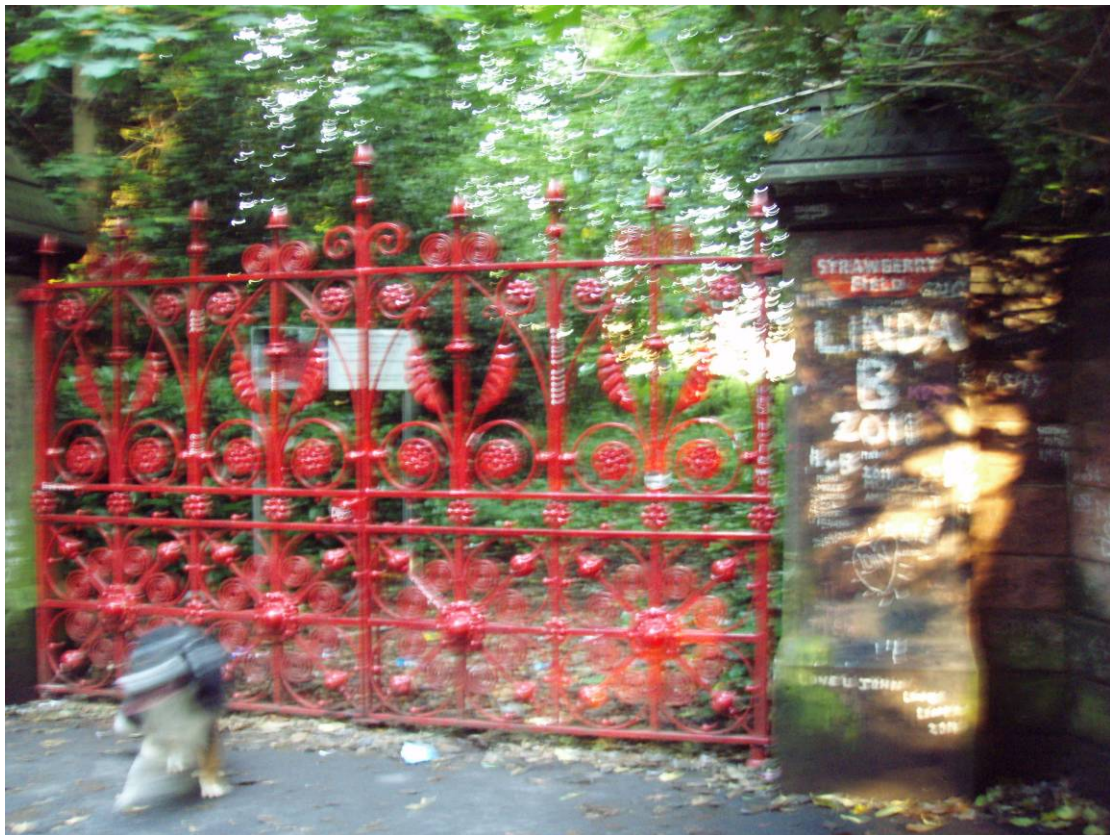

The Hare had given instruction about following the direction of the arrows exactly and so when **Sprog** and **Carthief** found this arrow they followed its direction as shown in red. After discussions with the Hare she explained that obviously the arrow pointed in the direction of the yellow arrow.

Into Menlove Avenue and the first of the lookalike Checks

This led off into Beaconsfield and a psychedelic version of the Strawberry Field gate.

A more conventional Hash Flash followed

An enterprising local had set up shop

Continuing along Beaconsfield, then Quarry St (shades of The Quarrymen?) and then Linkstor Road.

Another Check with a passing likeness to **Sprog** and **Another Mother Trucker**

Arriving at St Peter's Church the Hare declared that we were not going to visit Eleanor Rigby's grave but we did anyway.

A few Checks later

This likeness eludes me at the moment

And a

The Hare's feet were giving no directions away.

After several false starts after the Check the critical arrow was found

And looking back

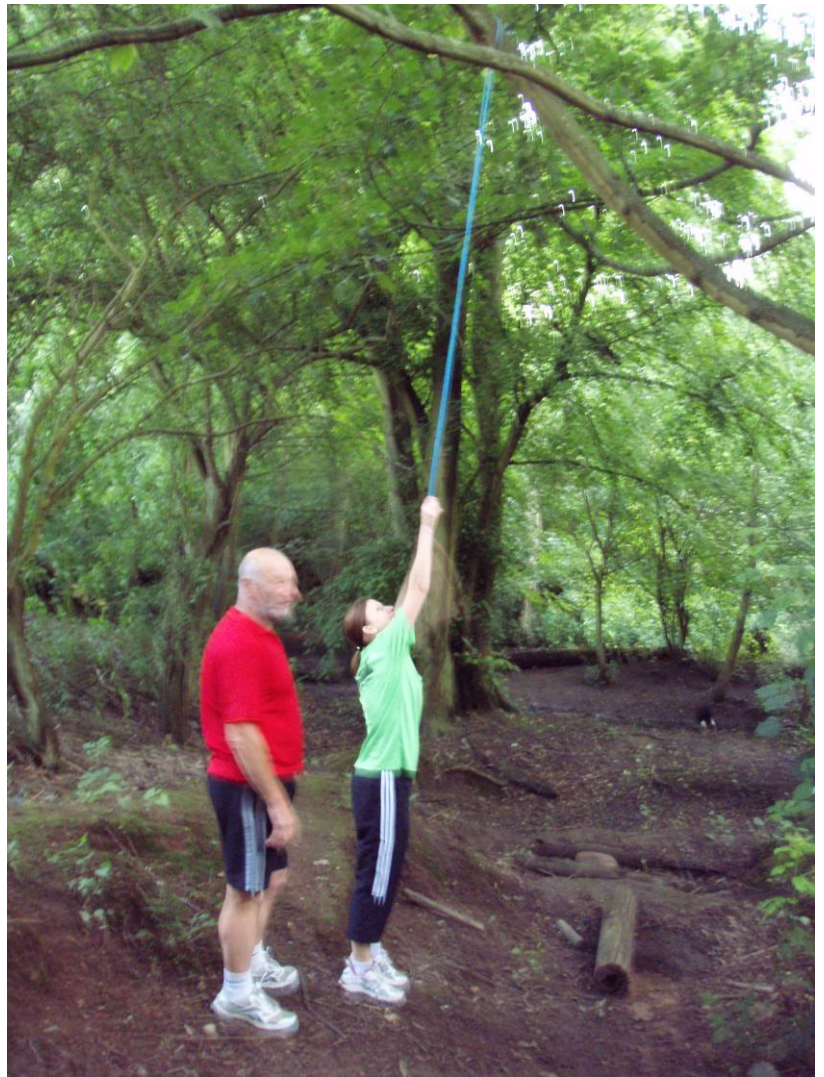

Onto a locked gate with a challenge

But the Pack chose their more usual methods (no one was hurt)

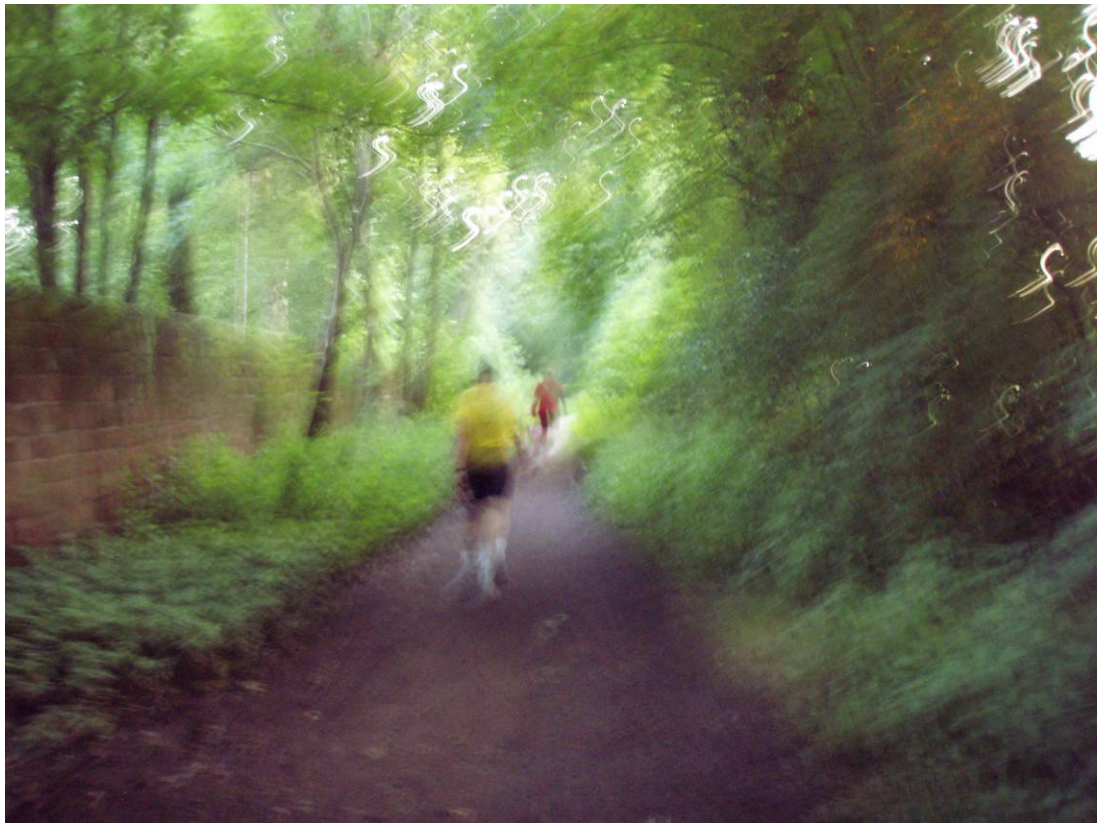

Across the A562 and into another wood where **Alternative Entrance** tried an Alternative method

Then it was

and some woodland trail at speed

Exit on Allerton road and then the next Beatles stop

The

was greeted with some relief

And it was still a nice long run in.

Sprog's GPS clocked it at 13km.

Snoozanne quickly produced the victuals and there was quiet as the calories were replaced.

The **RA** called herself up as the Hare. According to my notes it was a clairvoyant run (whatever that means)

FCUK was caught cockle picking on the Hilbre Island run.

Returnees Alternative Entrance, Carthief and Sprog.

With signs of rain we retired to the pub to wet our insides rather than our outsides
