Down

Across Menlove Avenue and into Allerton Park Golf Course

Photographic evidence showed at least 3 hashers obliged

We were greeted with this sign

Some chose to watch rather than join in

One chose to supervise

And one tried to find out what the hell it was. He gave up after 10"

Back on trail through the park

and out the other side with a architectural lesson from the H

Harthill Road, Green Lane
some more Checks and it

Back at the cars and the tennis club the Hare took orders for drinks. As I do not remember paying I guess he stumped up for the round so belated thanks to **ET**.

Snoozanne produced the calorie replenishment materials which disappeared in such a fashion to suggest that they equalled or exceeded her normal fare.

There was some resistance to forming a standing circle as several of the pack had made themselves comfortable in the chairs but eventually the circle was formed

The Hare was called up

The Returnees **FCUK**
and **Compo**

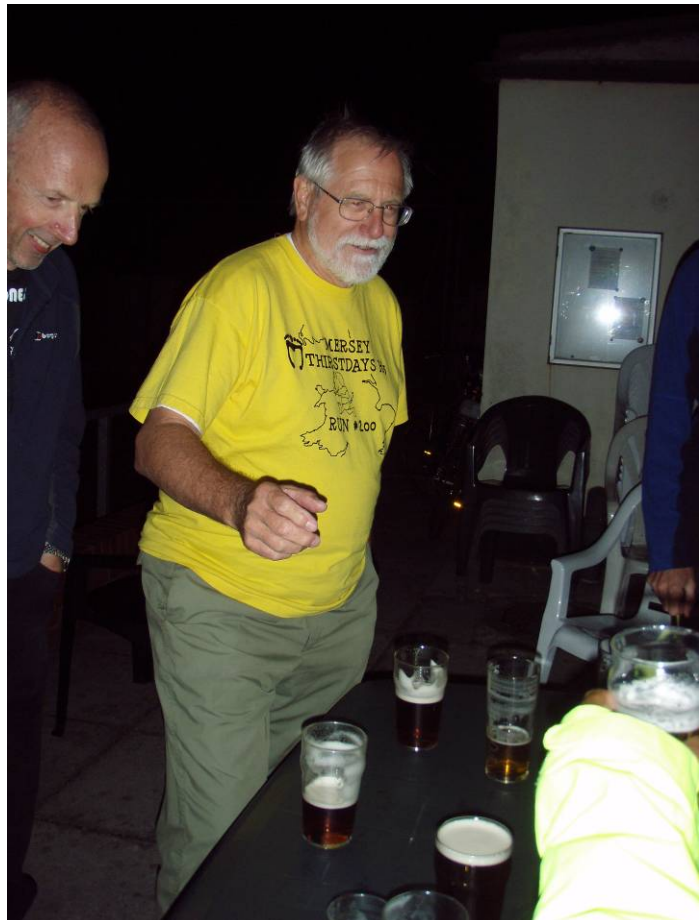

Virgins: Brian, Robin, Sophie and Noeleen (Christmas Eve??).

Compo for shortcutting (did not climb over the wall).

Compo again in celebration of his 65th birthday the following day.

We retired to the clubhouse for further refreshments although **Compo** eyeing up a bottle of water (probably wondering what you do with a bottle of water)

was the only evidence.
