

**ERSEY THIRSTDAYS  
HASH HOUSE HARRIERS**

18<sup>th</sup> December 2014

Run Number 282

Pilgrim and Zorba's, Liverpool

Gathering in the Pilgrim before the run

Once outside The Hare explained that there were to be virtual Hares. He had planned the route over several stages and written the directions for each stage on a piece of paper. The virtual Hares chosen at random (well what passes for random in MTH3) would each be given his / her instructions when the previous Hare had completed his or her portion of the route.

The first virtual Hare was Cleo (according to my notes) but photograph evidence seems to show otherwise. (Maybe it was a team effort).

The Pack went off following the Hare with several interruptions as he absorbed the information.

Past the

Multiple changes of direction later (as per the instructions) the Hare eventually stopped at the top of the steps at Paddy's wigwam.

The baton was handed to Hansel and he ran down the steps with the Pack in hot pursuit.

Here he is checking on street names

Finally we arrived at the Mosque

Looking a little different in Streetview

One of the other Virtual Hares took over here and we followed him to

The synagogue

Another VH led the way to the Greek Orthodox Church. This may have been 10" who had trouble with his beard getting in the way of his reading the instructions.

Leanne took over here and after some assistance with the lights

the pace quickened considerably although by now we had pretty much guessed that the Anglican Cathedral was the next and last stop.

We were not disappointed
