

## ERSEY THIRSTDAYS HASH HOUSE HARRIERS

Run Number 93 8<sup>th</sup> May 2008  
Bromborough Station

The Pack: Carthief (Hare), Compo, FCUK, Cupsucker, OTT, Overdrive, Cleopatra, Drillbit.

Meeting up at the station at 2 minutes to 7pm there were the Hare and two victims. Then a train pulled in, **OTT** and **Drillbit** arrived and then we were 8.

The Hare explained the various symbols and there seemed to be some intakes of breath as the more intricate arrangements were described.

He then followed **Cupsucker's** innovation from Run 92 by trying to whip up enthusiasm by waving the map of the trail at the assembled pack. Cries of "What a long one"; "It is enormous" were heard but the Hare was crestfallen to realise that they referred to the map and not his body parts.

A Hash Flash followed

The Pack mainly ran off on a long falseie before being called back.

On down Allport Road and a turn into Dibbensdale where Compo called Hash Flash to a photo opportunity.

**Jonah and Souk Hash**

(who only live over the road). They had not even seen the Hash markings!

So now not content with non runners making their way into the Hash Trash we even have their photographs as well.

On through a park with a question mark at the play area

to indicate that CPT (Compulsory Play Time) was optional.

Over the railway and along a path in need of some deep cleaning and into Acre Road.

False trails to keep the pack together with **Drillbit** and **Overdrive** well out in front to the top of the road.

Having experienced several falsies and words of encouragement to explore them **Cupsucker** advised everyone how she knew that the Hare was lying. He would have his mouth open.

A sneaky route through to the A41, re-using a Check (or two) from Run 63 (in yellow crayon) and a tantalising falsie down the main bridle path (Green Lane) before the trail turned back on itself.

**FCUK** took the opportunity to short cut.

Finally back onto the A41 and some traffic dodging before the trail was found down a narrow path and then past the golf club ...

and into Eastham Country Park where the falsies kept the pack happy for a while and the view was picturesque.

Onto Ferry Road and a diversion down to an impromptu Hash view (except for **Cupsucker** who stayed back at the road).

Into the park again and the official Hash View

This was followed by a Treesucker

then uphill back to the A41 where  
disappointingly the Off Licence was  
closed.

Some devious trail into  
and out of various playing fields

and then the long On Inn

All back in 1hr 55 min

Jonah and Souk Cash found here

This loop and CPT were omitted as there were children about.

Start

CB7

FCUK short cutted from here to here

Cupsucker refused to go down here (to see the view)

Impromptu Hash View

Hash View

Check Backs shown in red

Back at the Station carpark, we found that **Compo** had provided much needed Brie, grapes and French bread.

The democratic Down Downs followed:

The Hare for the run

Newcomers **Overdrive**, **Cleopatra** and **Drillbit**

Returnee **OTT**

**Cleopatra** for posing (presumably like this)

**FCUK** for his shortcut

**Drillbit** for his consistent front running.

**Cupsucker** For her reluctance to go down.

The Hare again. He took the comments about deviousness to be compliments.

We retired to the Merebrook for much needed fortification.
