

Thirstdays Witless Abseil Team

Running with the Mersey Thirstdays Hash House Harriers can get one into all sorts of interesting situations. One rainy evening in the Albert PH on Lark Lane, **Whinger**, thought the preceding run around Sefton Park with just its 4 water crossings, was really boring. 'For excitement and thrills' he said, 'come for a 110ft abseil off Leasowe Lighthouse on the Wirral on the 11th June'. 'We'll get a big old crew of hashers to do it and it will be such a laugh!' 'All you need to do is fill out this form and send it off with a tenner, and raise a little bit of sponsorship money for Marie Curie Cancer Care'.

OK!

On Sunday 11th June, **RTfuct**, the **only** fool who actually did send off the form and rally some sponsorship, ran **Compo**'s Wirral and Chester trail, declined a beer at the very hot beerstop and the circle, gobbled a sausage at **BJ**'s bbq and was driven by shame-faced **Whinger** and **Lady Penelope** with **Repunzel** to Leasowe Lighthouse. Here's how it went:

HOOORRAAYYYYY!!! A spare place so **Whinger's** going to do it too!!!!

Thanks to **Lady Penelope, Repunzel** (not pictured due to camera shyness), **Chunder**, and **Bumslide** for support, the rest of the hash for staying at **BJ's** to drink beer, and...**OK Whinger**, it was actually quite a laugh after all. In total we contributed £255 to an event which raised well in excess of £14, 000 for Marie Curie Cancer Care (if you said you'd send me some quids for it – please do!)
