

Run 607 13th Aug 2026

On Inn: The Travellers Rest, Bebington

The Pack: Sticky Rice (Hare), Bimbo, FCUK, OTT, Snoozeanne, Breast Stroke, Victim, ET, Wigan Pier.

A welcome return for Sticky Rice who had been coerced by the Hare Razor (Wigan Pier) to also hare the event. Another glorious warm evening engulfed the group. Summer attire was again required – will we ever get any rain?

All except Wigan Pier had travelled by car. Bromborough Station was said to be a 25 minute walk.

The pack congregated inside the pub to await the hare who had insisted on remaining outside to discourage dawdling and encourage a prompt start. An inquisitive local joined the pre-hash chat/flash. He appeared enthusiastic to participate but was wearing flip flops, had probably overdone the pre-hash drinks and also was waiting for a friend. He was not deterred by the details provided of the physical challenges expected on our runs. Given details of our group - hopefully may join a future hash.

The route followed Rest Hill Road down the hill opposite the pub to the entrance of Storeton Woods where the instructions had been given to park cars and for post hash refreshments.

Lovely woodland was found on the slope sliding away from Mount Road. Helpful prompts were provided by the Hare after the pack's inability to locate any markings. There seemed to be a natural route to follow.

An inviting avenue at the start of the run

Away from the woods we encountered fields with many equestrian distractions, (threats?). It's always best to be tentative when passing animals bigger than yourself. The Mr and Mrs horses are kept in separate pens so as not to get up to any horseplay. Most were adorned with net bags over their heads to stop the irritation from flies. There was much horsey curiosity towards FCUK – or especially for his bicycle with the noise it made. Sticky Rice stayed to 'shoo' away their approaches.

FCUK being escorted off their field.

Making new friends

Spotted when exiting the hazard.

Further Fillies spotted in the next field.

View of the Welsh Hills

Nobody was brave enough to touch the advertised electric fence to see if was connected.

The route eventually turned back towards the hill from where the run originated – Indicated by an aerial mast.

Looking forward to the rain.

Down Downs were awarded to Sticky Rice for haring the event and Wigan Pier and FCUK for watering the trail. On the driest night of the year BS was awarded her sealskin socks for completing 100 runs.

Most of us returned to the Travellers Rest to discuss the evening, against the distraction of rugby on the telly (especially for Wigan Pier). A bedpan was found for the benefit of Sticky Rice.

Tonight's Spread

Warning-The Bedpans are back

Scribe getting started on the Trash

Memories of a lovely summers evening
